01 OCT 15 AM 10:51STATEMENT OF FACTSAssistant Commissioner for Patents
Washington, DC 20231

Sir:

The present application (*copy attached hereto as Exhibit A*) was filed on June 14, 1994, naming Milton Harris, Dave Kachensky and Tadahiko Kohno as inventors. The application as filed included claims 1-44. The application incorporated by reference U.S. Patent Application Serial No. 07/669,862 filed March 15, 1991, which is a continuation-in-part of abandoned U.S. Patent Application No. 07/555,275 filed July 19, 1990 and a continuation-in-part of U.S. Patent No. 5,075,222 issued December 24, 1991 (see e.g., the present specification at Page 1, paragraph 1). On December 1, 1998 Applicants' attorney filed a response (*copy attached hereto as Exhibit B*) cancelling claims 1-14 and 16-44, amending claim 15 and adding claims 45-58. Each claim enjoys the priority from at least the filing date of United States Patent Application Serial No. 07/669,862 (*copy attached hereto as Exhibit C*) filed March 15, 1991, entitled "Pegylation of Polypeptides". As a consequence of the claim amendments, the inventors of the pending claims are Robert C. Thompson, Michael Brewer and Tadahiko Kohno.

An amendment of the claims has necessitated correction of the inventorship for this patent application; the inventorship error existing in view of the claim amendment occurred without deceptive intent.

I further declare that all statements made herein of my own knowledge are true, that all statements made on information and belief are believed to be true, and that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both (18 USC 1001), and may jeopardize the validity of the application or any patent issuing thereon.
